

Corporate 1000™ Format Change Form

Corporate 1000 is a 35-bit card format that is developed specifically for use by individual end-user organizations. Organizations must qualify and formally enroll and be accepted by HID Global Corporation.

To ensure the security of your card format, authorize any HID System Provider to purchase and manage your Corporate 1000 cards on your behalf. Enter authorized HID System Provider information in **Table I**.

Use this form to communicate all authorizations concerning your Corporate 1000 format. It is recommended for each end-user to maintain an original copy of this form listing all authorizations. Changes made on this change form do not alter the terms and conditions originally established from the Corporate 1000 Format Request & Authorization Form.

Company End User _____ Format Number _____
