

WHY GO MOBILE?

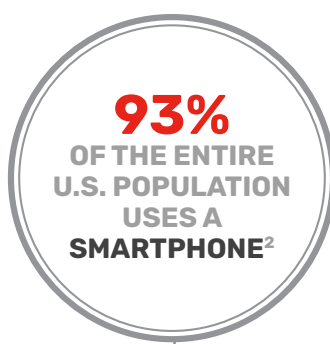

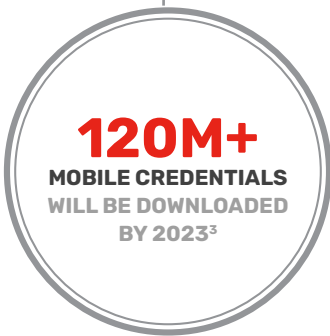

A contactless future is already here.

For secure authentication, your smartphone's **Bluetooth®** capabilities and **WAVE ID®** readers are the key to a safer, more productive workplace.

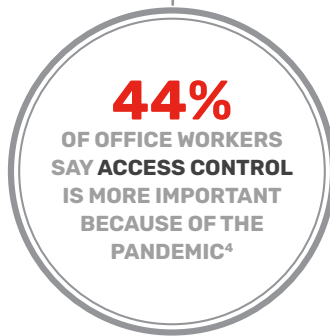

MOBILE IS TRENDING

Everywhere, post-pandemic workplaces are giving employees the flexibility to use their own smartphones as a critical, user-friendly authentication tool.

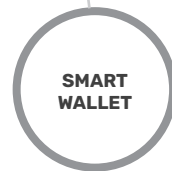

MOBILE IS TRUSTED

Smartphones are ubiquitous, contactless, more secure than other devices, and they keep your credentials right in your hands.

MOBILE IS TRANSFORMATIONAL

Mobility offers an array of critical advantages in today's busy workplaces—transforming how we do our jobs across every environment.

READY TO GO MOBILE?

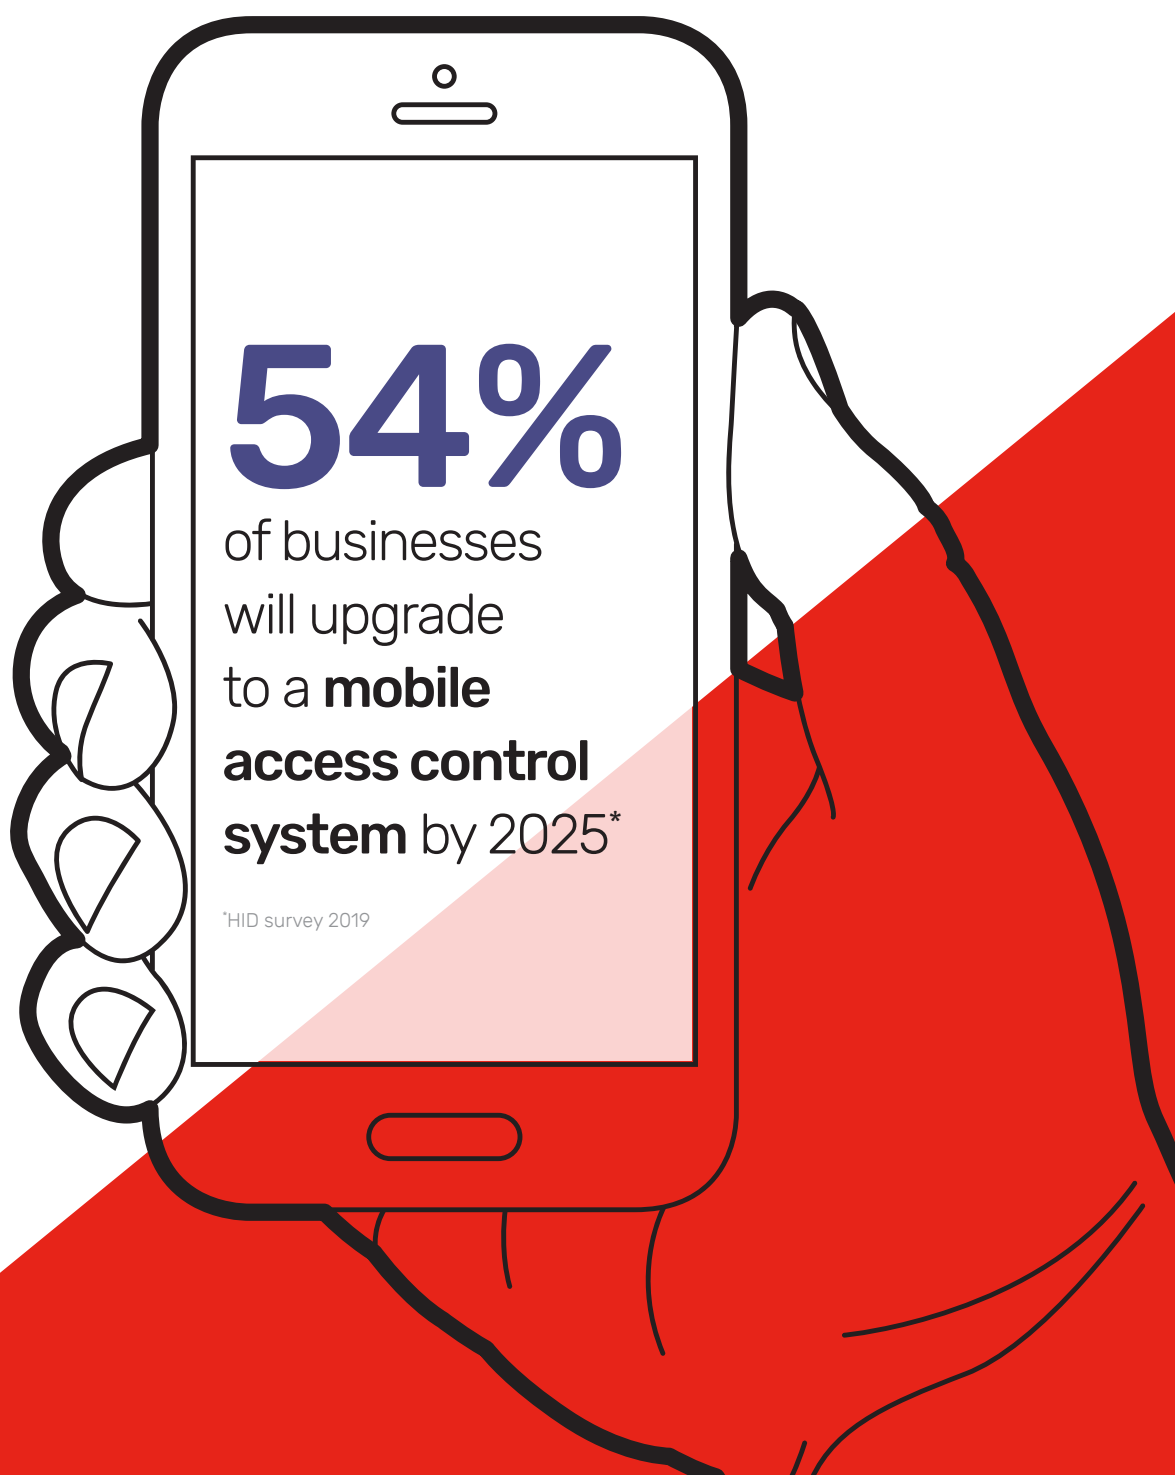

We know that there are many options and technologies to choose from when it comes to a mobile access solution. Our team of collaborative, responsive mobile access experts gives you the right advice and trusted solutions from leading partners.

We'll help you find a smart, flexible, on-the-go authentication solution that offers Less Touch, More Trust for a more productive, more confident workforce in any environment.

Our mobile partners include:
