rf IDEAS

Enable More Time for Care with Highly Efficient Workflows.

Discover how rf IDEAS delivers secure and compliant authentication beyond the door.

Right now, healthcare organizations are spending far too much time and money on password management. Because passwords are often reused and fairly easy to 'hack', they are today's number one cause of more than 80%[1] of hacking-related breaches. They're also a massive IT cost burden, as people are constantly forgetting and needing help to reset their passwords.

The average clinician manually enters

70 passwords per shift

Why not remove passwords altogether with highly secure tap-and-go authentication?

1. 2022 Verizon Data Breach Investigations Report (DBIR)

Why 80% of Hospitals Today Use WAVE ID®

Greater Data Security

Since passwords leave Protected Health Information (PHI) vulnerable to attack, passwordless authentication, using existing credentials, is an ideal way to keep up with evolving data security protocols without disrupting productivity.

Use your
- ID Badge
- Smartphone
- Biometrics
- Security Key

Improved Workflow Productivity + Seamless Integration

Constantly re-entering and resetting passwords for multiple business applications and medical devices wastes valuable time each day that could be better spent on patient care. With WAVE ID, nearly all your major healthcare systems are already pre-integrated.

Save up to 45 minutes per shift, per provider

Strengthened Regulatory Compliance

As healthcare regulations such as HIPAA, EPCS, and GDPR shift and change over time, facilities today find themselves struggling to maintain compliance. rf IDEAS can help hospitals with compliance by migrating from less secure passwords and proximity credentials to highly secure authentication credentials.

HIPAA, EPCS, GDPR compliant

Empower Secure Authentication Across the Hospital.

Simplify logical access in every area while ensuring greater compliance.

WAVE ID: One Technology. Endless Healthcare Possibilities.

Meet the industry-leading platform that allows you to leverage nearly any existing physical or mobile credential worldwide for efficient, compliant logical access. Choose between integrating into existing business applications or embedding into medical devices to achieve better access control across the facility.

Embed WAVE ID authentication technology into the following medical devices:

- IV pumps
- Dialysis machines
- Nurses' stations
- Handheld diagnostic tools
- Medical carts on wheels
- All-in-one computers

- Patient monitoring devices
- Supply cabinets
- Pharmacy dispensing systems
- Fixed diagnostic devices
- Mobile diagnostic devices
- Handheld EKG and ultrasound

- In-room call stations
- Hand washing stations
- Vending machines
- Multi-function printers
- Laptops and more

Why rf IDEAS for Healthcare Authentication

> " When it comes to rf IDEAS, they're a reliable partner and somebody that you want to go to battle with. They have the unique ability to bring forth the best experience for our customers.
>
> **- Imprivata**

Trusted Leadership
Nearly 30 years of global market experience.

Healthcare System Integrations
Seamlessly integrated solutions with healthcare systems, applications, and devices from providers such as:

- Imprivata
- Certify Health
- Cerner
- Workday
- GE Healthcare
- Philips
- BD
- And more

Innovations
Future proof your facility with our advancing credentials from NFC/Digital Wallet to FIDO2 security keys to biometrics such as fingerprint, facial, and voice recognition.

Services and Support
rf IDEAS offers secure credential provisioning, key management, and deployment services to ensure optimal performance.

rf IDEAS for Healthcare: Secure. Frictionless. Compliant.
